CENTRAL UTAH FIRE INTERAGENCY

Hazardous Fuels Project Information Sheet

Durfey Creek Mechanical

Fremont Ranger District, Dixie National Forest

Contact Information: Kent Chappell at 435-425-9578, kchappell@fs.fed.us or Jill Ivie at 435-896-1573, Jill_Ivie@blm.gov.

Planned Date: 2011-2013

Location: East end of Boulder Mountain (Durfey Creek Drainage) 11 miles southeast of the community of Grover, Utah.

Legal Description: Township 31 South, Range 6 East, Sections 7, 8, 9, 16, 17, 18, 19, 20, 21, 28, 29, and 30

Project Description: Starting in the spring of 2011 the Fremont River Ranger District will again treat approximately 350 acres. The project began in 2004. The project consists of 1700 total acres. Since that date 1050 acres have been treated. Treatment methods will consist of Bobcat brush saws and using chainsaws.

The Fremont River Ranger District of the Fish Lake National Forest is implementing this project. This project is intended to maintain chaining openings that are being encroached by Pinion/Juniper while maintaining grass and forbs. Also improving wildlife habitat and reducing total fuel loading.
