

### Cedar City BLM Planned and Approved Projects 2008

<i>Project Name: Project Type:</i>	<i>Acres</i>	<i>Objectives</i>	<i>County</i>	<i>Treatment Status</i>
<b>Greenville Bench (WUI)</b> Prescribed Fire Phase2: Seeding: Chaining/Seeding:	1,773 3,200 10,000	Fuel Reduction, rangeland health, reduce invasive species, ecosystem restoration, and improve wildlife habitat and watershed management.	Beaver County	Approved/ Initiated Completed Completed
<b>South Creek</b> Seeding: Bullhog:	800 800	Fuels reduction, improve wildlife habitat for range and ecosystem management.	Beaver County	Planned Initiation: 09/01/2008 Planned Initiation: 09/01/2008
<b>Highway 56 (WUI)</b> Bullhog: Harrow:	900 100	Fuel Reduction, rangeland health, reduce invasive species, ecosystem restoration, and improve wildlife habitat and watershed management.	Iron County	Approved/Initiated Approved/Initiated
<b>Paradise/Hamblin Valley</b> Aerial Seeding:	4,200	Rangeland health, reduce invasive species, ecosystem restoration, improve wildlife habitat and watershed management.	Iron County	Completed
<b>Lone Pine</b> Disking: Mechanical Thinning: Seeding:	100 700 100	Fuels reduction, rangeland health, reduce invasive species, ecosystem restoration, improve wildlife habitat.	Iron County	Completed Completed Completed
<b>North Hills</b> Bullhog: Mechanical Thinning:	100 600	Fuels reduction for communications site, rangeland health, reduce invasive species, ecosystem restoration, improve wildlife habitat and watershed management.	Iron County	Planned Initiation: 5/7/2008 Planned Initiation: 5/14/2008
<b>Spry</b> Mechanical Thinning:	1,500	Fuel reduction, rangeland health, reduce invasive species, ecosystem restoration, improve wildlife habitat.	Garfield County	Approved/Initiated
<b>Five Mile Hollow (WUI)</b> Mechanical Thinning: Seeding:	1,700 337	Fuel reduction, defensible space, rangeland health, reduce invasive species, ecosystem restoration, improve wildlife habitat and watershed management.	Garfield County	Approved/Initiated Approved/Initiated
<b>South Canyon (WUI)</b> Prescribed Fire:	1,000	Fuel Reduction, rangeland health, reduce invasive species, ecosystem restoration, and improve wildlife habitat and watershed management.	Garfield County	Planned/Approved
<b>Horse Valley</b> Prescribed Fire:	1,000	Fuel Reduction, rangeland health, reduce invasive species, ecosystem restoration, and improve wildlife habitat and watershed management.	Garfield County	Planned/Approved
<b>Enterprise (WUI)</b> Bullhog: Hand Pile: Seeding:	450 100 500	Fuels reduction, defensible space, rangeland health, reduce invasive species, ecosystem restoration, improve wildlife habitat and watershed management.	Washington County	Approved/Initiated Approved/Initiated Approved/Initiated
<b>Highway 18 Corridor (WUI)</b> Hand Pile:	400	Rangeland health, fuel reduction, defensible space, reduce invasive species, ecosystem restoration, improve wildlife habitat and watershed management.	Washington County	Approved/Initiated
<b>Central/Brookside (WUI)</b> Fuel Break:	300	Fuel reduction, defensible space, rangeland health, reduce invasive species, ecosystem restoration, improve wildlife habitat and watershed management.	Washington County	Planned
<b>Alton/Millcreek</b> Bullhog: Mechanical Thinning:	1,500 1,700	Fuel reduction , rangeland health, reduce invasive species, ecosystem restoration, improve wildlife habitat and watershed management.	Kane County	Approved/Initiated Approved/Initiated
<b>Greater Buckskin</b> Mechanical Thinning: Seeding: Hand Pile/Cleanup:	500 550 250	Fuel reduction, improve wildlife habitat for range and ecosystem management.	Kane County	Approved/Initiated Approved/Initiated Approved/Initiated
