Size: 400 acres

Planned Burn Date:

January-April/ September-December 2012

Expected Duration: Approximately 5-10 days for ignition operations, and 5-10 days for fire to clean up accumulated fuels.

Location: 1 to 5 miles south and southeast of Duck Creek Village Utah.

Legal Description: Township 38 South, Range 7 West, sections 19, 20, 30, 34

Project Description: Duck Creek Fuels Aspen Burn area is located in the greater Duck Creek area. Slash fuels are produced from thinning, lopping and scattering. The goal of this prescribed fire is to create stands of fire-resistant tree species, stimulate aspen regeneration, reduce heavy fuel loading, increase the frequency of grasses/forbs/shrubs, and reduce the risk of catastrophic crown fire throughout the Duck Creek Fuels Project Area.
