

September 2011

# **PRESCRIBED FIRE**

## **Rush Valley Research Prescribed Burn**

**WHEN\*:** September 6-9, 2011  
or  
September 12-16, 2011  
**\*weather dependent**

**WHERE:** 6 miles southeast of Vernon, Utah

- **SMOKE IS EXPECTED TO DISPERSE WELL**
- **FIRE OPERATIONS SHOULD ONLY TAKE A FEW HOURS**

### **Background:**

The West Desert Fire Zone in conjunction with Brigham Young University will implement a 14-acre low severity sagebrush prescribed burn in order to treat and study hazardous fuels southeast of the East Tintic mountains.

The Rush Valley Prescribed burn is comprised of 5 burn units within a 10 acre enclosure. Each unit is 30mx30m.

The burn is considered low-complexity.
