

WEST DESERT BLM FUELS MANAGEMENT

Contact: West Desert District Fuels Program, 801-977-4300

Planned Date: Fall/Winter 2011-12.

Project Location: Located in Utah County, along Reservation Ridge Road, 23 miles northwest of Price, Utah.

Project Size: 83 acres

Left: Trees dying from bark beetle infestations in Reservation Ridge area..

Project Description: The Reservation Ridge pile burn is designed to reduce wildfire hazards and promote aspen regeneration. Slash piles were created during the removal of timber as part of an overall strategy of reducing fire hazards and improving ecosystem health. A Douglas fir beetle epidemic, as well as other beetle infestations have caused substantial tree mortality along Reservation Ridge.
