## Color Country Fire Managers Announce 2012 Schedule of Prescribed Burns

**St. George, Utah** – Color Country interagency fire managers have announced plans to ignite several prescribed burns in southwestern Utah and northwestern Arizona this year. These burns will be managed by various federal and state agencies including the Bureau of Land Management, the US Forest Service, the National Park Service and the Utah Division of Forestry, Fire and State Lands.

The following prescribed burns are planned for this year but will only occur if forecasted weather conditions are favorable and adequate resources are available. Portions of some of these burns may have already been completed or are multi-year projects.

<b><u>Burn Unit</u></b>	<b><u>Location</u></b>	<b><u>Acres</u></b>	<b><u>Agency</u></b>

Poison Creek	7 miles Se of Antimony, UT	370	USFS – Escalante RD
Upper Santa Clara	1.5 miles SSE of Pine Valley, UT	100	USFS – Pine Valley RD

-more-

Prescribed burns are management-ignited fires that are used to decrease the risks from wildfire to life, property and resources, to improve ecological process on both public and private lands and to meet agency-specific resource management goals. Prescribed fire projects are conducted in a manner consistent with land and resource management plans, public health considerations (smoke issues) and approved prescribed fire plans.

Color Country Interagency Fire Management is an organization of fire management officials in southwestern Utah and northwestern Arizona (the Arizona Strip) who promote safe and effective fire management through interagency cooperation. Since many wildfires and prescribed fires are of a multi-jurisdictional nature, interagency cooperation provides an ideal background for cohesive ecological, social, political and economical considerations for land management.
