

Richfield Interagency Fire Type-3 Team (Lopez/Nez)

Aspen Springs Fire Update

July 22, 2013

Start Date and Time: July 21, 2013 at 17:27

Location: 2 miles east of Spring City, Utah on Private Land

Size: Approximately 15 acres

Percent contained: 35%

Estimated Containment Date: NA

Fuel Type: Pinion-Juniper, sagebrush, and grass

Cause: Under Investigation

Resources: 1-Type 3 Incident Management Team, 1-Type 3 helicopter, 10-Fire engines, 2 bulldozers, and 2-twenty person hand crews have been ordered to work on the fire today. 2-SEAT Planes dropped fire retardant on the fire yesterday.

Highlights: The Sanpete County sheriff has implemented voluntary evacuations for approximately 50 homes and cabins of Pine Mountain Subdivision. Two bulldozers and fire engines worked on the fire overnight constructing fire line. Firefighters will continue to improve fire lines and limit fire growth of the fire today. This morning the fire was smoldering with occasional torching.
