The lightning caused Briggs fire, located in the remote area of the south fork of North Creek, was discovered on 8/9/2016. The fire is approximately 1,300 plus acres and is actively burning in heavy dead and down mixed conifer. This fire is in an area that is being managed for multiple resource benefits. As crews complete protection measures, helicopter firing operations are being conducted to further reduce high fuels concentrations. The firing operation will strengthen protection actions and assist with the ecosystem regeneration.

**Closures:** The temporary area closure for the Briggs Fire will remain in effect until no later than September 15, 2016. This order was issued for protection of public health and safety. **The Big John Flat Road (Forest Road 123) that was open to ATV/UTV pass through access between 8:00 a.m. and 8:00 p.m. is now closed to EVERYONE until further notice. Conditions are in place for fire personnel to conduct a burn operation in the vicinity of the road. For public and firefighter safety, no access can be allowed.**

For ATV/UTV access visitors may use Forest Road 113 from either Beaver Creek or Interstate 70 at Mill Creek. PST74 (Deer Trail) is also open for ATV/UTV use only. In addition, the Max Reed Trail ( Paiute 01) off of I-70 near the Castle Rock Campground is open.

**Trails and roads closed:**
