**Injuries to Date:** 2

**Total Personnel:** 408

**Estimated Containment:** 07/10/2012

**Estimated Cost:** \$5,897,807

### Fire Update

The northern, western and eastern fire perimeter of the Clay Springs fire is holding well and not expected move. Good progress is being made on tying the fire line together on the southern perimeter as well. This is very steep, rocky terrain and hand-crews are doing most of this work. An additional contingency dozer line has been prepared in southern portion of the range south of the fire containment line to prevent any escapes. This dozer line will remain in place until the fall and will be rehabilitated by the local Forest. Allotment fencing damaged by the dozer line construction is being repaired to maintain allotment boundaries.

Fire suppression repair is continuing along the containment lines to restore the land and minimize the impact of suppression efforts. This includes water bars in dozer and hand lines, scattering of chipped vegetation, fence and water line repairs.

Southern California Incident Management Team 1 (Type 2) will transition fire management to local agencies on Tuesday morning, July 10<sup>th</sup>. Local volunteer fire departments continue to provide expertise to the fire management effort.

**Weather:** Temp: 77-79 degrees with a chance of showers, humidity: 23-25%, upslope winds 5 mph, erratic gusts up to 25 mph possible near storm conditions

**Road Closures:** Oak Canyon Road (Oak City)
