PRESS RELEASE

For Immediate Release: August 4, 2016

Contact: Phil Sneed, Fire Information Officer, 660-973-2714

Wildfire Update – Porcupine Fire

Location: Porcupine Ridge, Approximately 7 miles southeast of Mayfield, UT

Elevation: 9,000 feet

Cause: Lightning

Start Date: Saturday, July 23, 2016

Jurisdiction: Sanpete Ranger District, Manti La Sal National Forest

Fire Size: Approximately 278 acres (Note: one acre is equivalent to one football field)

Fire Summary: The Porcupine fire is now at 278 acres and continues to creep and smolder through patchy fuels. In addition, crews are using opportunities provided by ideal weather to burn out areas of dead and down wood. Control lines are in place to check fire spread to the north. Tactics are designed to minimize risk to firefighters and achieve resource objectives. A primary goal is to reduce fuels while conditions are ideal to create a more resilient landscape that will prevent larger, more extreme fires in the future. Other objectives are to clean up old dead and down wood and reduce conifer encroachment in aspen. Fuels are a mix of grass, litter, subalpine fir and other conifers mixed with aspen. Partly cloudy skies with isolated showers are forecast through Friday with a return to drier conditions over the weekend.

Public Meeting: There will be a public meeting to update the community on the progress of the Porcupine fire on Friday, August 5 beginning at 7:00 PM. The meeting will be held at the Mayfield City Hall.

Closures:

Road and trail closures are in place to ensure public and firefighter safety during fire operations. Roads and trails affected by the Porcupine Fire closure area include:

- (Unnamed Forest Service Road) (FSR # 1272)
- (Unnamed Forest Service Road) (FSR # 1212)
- Victim Ridge Trail (Forest Service Trail) (FST # 127)

These roads are restricted to vehicles under 2500 lbs GVW and will have a 10 mph speed limit:

- Beaver Creek Road (FSR #0290)
- Clear Creek Flat Road to Woods Lake (FSR #0159)

These closures will be in effect from the date signed until August 31, unless rescinded.

Structures: No structures threatened.

Percent Contained: 0%

Fire Crews/Resources: Crews include Tushar Mountain Fire Use Module and the Skyline Handcrew. They will be monitoring the fire, taking fuels samples, and improving control lines.
