Old Woman Wildfire Update – June 25, 2015

This is the final update unless significant activity occurs

Name: Old Woman

Location: Approximately 20 miles east of Salina, Utah

Jurisdiction at origin: U.S. Forest Service

Cause: Natural/Lightning

Acres: Approximately 460

Percent Contained: 79

Fuels: Brush, grass, timber

Fire Behavior: Creeping, backing, with isolated single tree torching

Personnel Assigned: 43

Structures Threatened: None

Remarks: Fire managers are managing this fire to meet the objectives of providing for firefighter and public safety, reintroducing fire to the Ponderosa pine ecosystem and to reduce hazardous fuels.

Firefighters are patrolling, monitoring and mopping up the burned area of the fire. No more night operations are planned.

Demobilization of resources will begin today.

Information on this and other fires are posted at www.utahfireinfo.gov and <http://inciweb.nwcg.gov>
