## FACT SHEET

Wednesday, September 29, 2010-6:10 PM

--The Twitchell Canyon Fire is currently active in the area north and east of North Fork and in the mountain slope on the west side of the fire, five miles east of Sulphurdale.

--The south and southwest area north of North Fork is actively being suppressed by several firefighting crews and dozers to protect private property. Air tanker and helicopter support is also being utilized to drop fire retardant and water in order to reinforce contingency lines and keep the fire from moving south into North Creek private property.

--Due to the proximity of the Twitchell Canyon Fire, forest roads in this area east of Hwy 15 and south of Hwy 70 have been *temporarily closed* to provide for public and firefighter safety.

--Firefighters are *closely* monitoring the Twitchell Canyon Fire day and night from air and ground.

--A FACT SHEET will be sent out again by 10:00 PM to provide the most up to date information and facts.

--For more information, call 435-527-3727.
