Eric Eastep 435-865-3278

[eeastep@fs.fed.us](mailto:eeastep@fs.fed.us)

**Size:** 50 acres

### **Planned Burn Date:**

January-March, October-December 2013

**Expected Duration:** Approximately, 1-5 days for ignition operations, and 5-10 days for fire to clean up accumulated fuels.

**Location:** Multiple locations on the Cedar City Ranger District.

**Project Description:** These are multiple areas that are presently being logged or have been logged in the past. The areas have had large slash piles made of the unwanted wood. The Slash piles are to be burned when snow is present to limit the burning to be confined to the unwanted slash piles thus not spreading elsewhere. By removing this slash scenic quality of the immediate area is improved and hazardous fuels are removed.
