

Little Valley Prescribed Fire

Fillmore Field Office
West Desert District, BLM

Location: 8 miles south of Scipio, Utah, east of State Route 50 and north of Lone Cedar Pass Road.

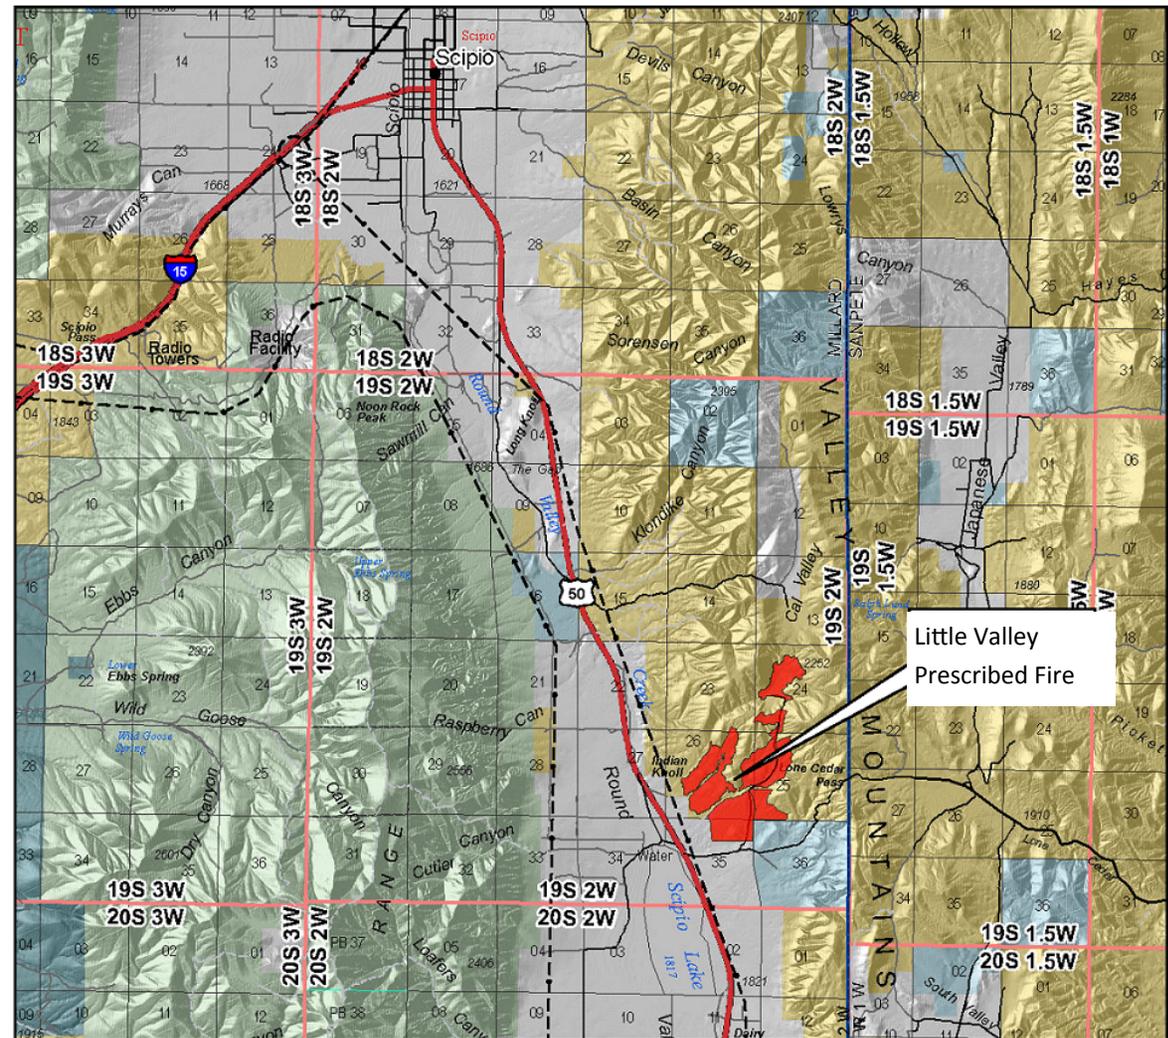

Size: 658 acres

Project Dates: Late October-Early November 2014

Objectives: Reduce fire hazards, protect communities from wildfires, and improve wildlife habitat and grazing opportunities.

Treatment Description: Prescribed fire will be used to burn juniper and pinyon pine tree slash created by previous fuel treatments in 2013. The burn will be implemented over several days. This prescribed burn is part of the Valley Mountain Project, a 26,500 acre vegetation treatment area.

Safety: Please avoid the burn area during implementation. Smoke is expected to disperse well but use caution if smoke is present on adjacent roadways.

For more information please contact the Fillmore Field Office at 435-743-3100 or go to www.utahfireinfo.gov/fuel_projects.html.
