

Meadow Pile Burn

Fillmore Field Office
West Desert District, BLM

Location: 3 miles East of Meadow, UT.

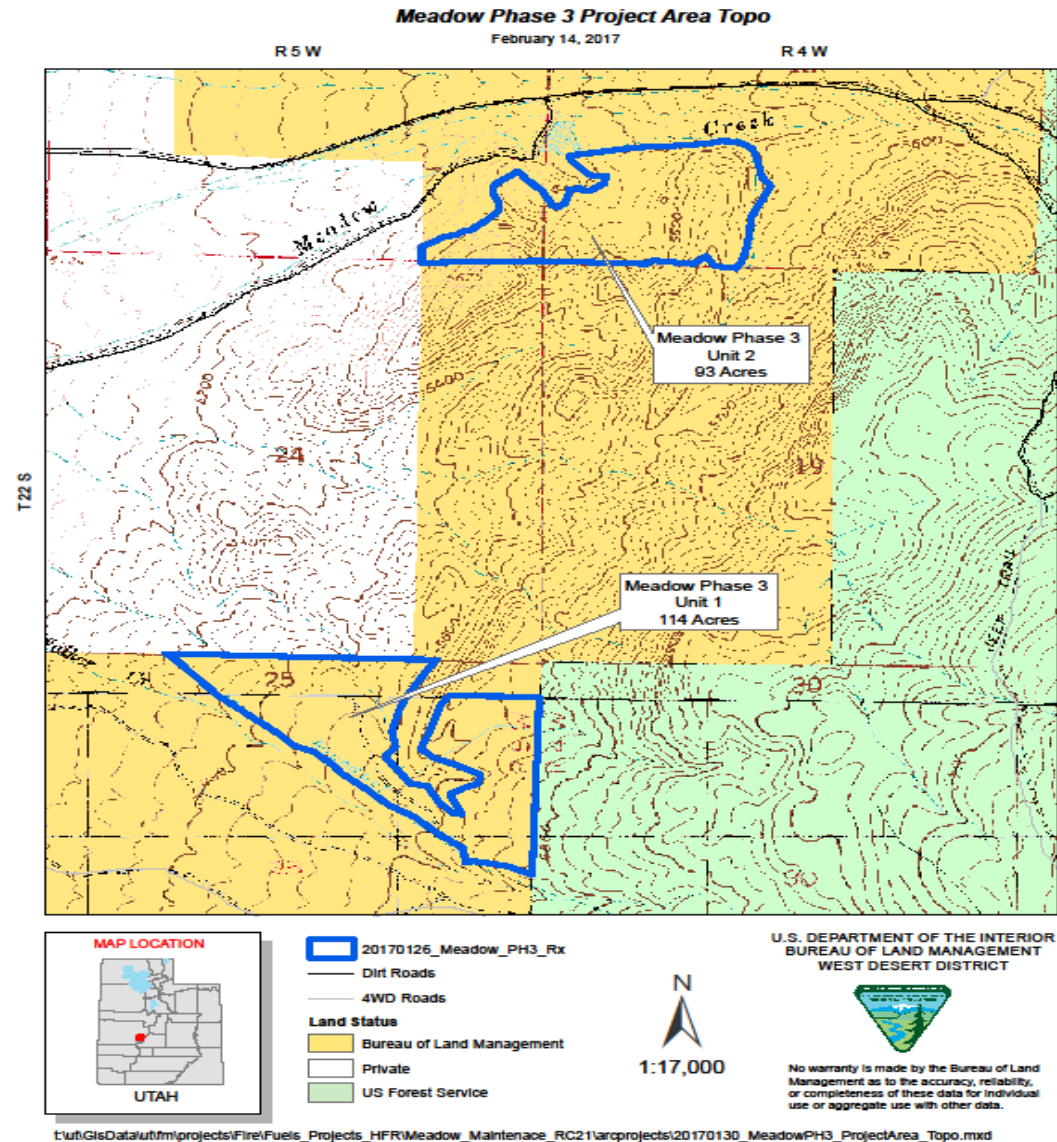

Size: 207 acres

Project Dates: March-May 2017

Objectives: Pile burning will reduce fuel loads and increase opportunities to use direct fire suppression tactics. The burning will protect homes and private land, as well as natural resource values.

Treatment Description: The primary purpose will be to reduce the amount of woody and herbaceous fuels resulting from fuels treatment activities. Juniper trees were cut and have dried out prior to burning.

Safety: Please avoid the burn area during implementation. Smoke is expected to disperse well but use caution if smoke is present on adjacent roadways.

For more information please contact the Fillmore Field Office at 435-743-3100 or go to www.utahfireinfo.gov/fuel_projects.html.
