**RUDD CANYON FIRE CONTAINED JULY 28, 2011**

Farmington, Utah, July 28, 2011 – The 14 acre Rudd Canyon Fire was 100 % contained at 2:00 p.m. on July 28, 2011. All but one 20 person crew will be released from the Rudd Canyon Fire tonight to be available for other initial attack fire assignments. Tomorrows plan it to have the crew continue to mob up any hot spots within the interior of the fire line. The public is reminded that the Rudd Canyon Fire is contained, but not controlled. During the next few days smoke may be seen in the burn area, but because it is in the interior part of the fire it should not be a threat to containment lines. Fire personnel will patrol and monitor the fire after through the weekend.
