Termination of Fire Restriction Order

Recent precipitation, moderate fire indices, and non-critical fuels status have resulted in reduced fire hazard on Bureau of Land Management administered lands in southeastern Utah. Therefore; Fire Restriction Order- UTY002-15-001, dated 7/03/15 is hereby rescinded on all areas identified in the restriction, specifically:

- All BLM Canyon Country Fire Zone lands within Emery, Carbon, Grand, and San Juan Counties in the State of Utah.

This rescinded order becomes effective at 12:00 a.m. Friday, July 24, 2015.

Information concerning lifted fire restrictions may be obtained at www.utahfireinfo.gov or the following BLM Offices:

Moab Field Office	Moab, Utah	435-259-2184
Monticello Field Office	Monticello, Utah	435-587-1500

Moab UT – Effective 12:00am, Friday, July 24, 2015 fire restrictions will be lifted for the State of Utah, Bureau of Land Management (BLM) and National Park Service on lands within Carbon, Emery, Grand and San Juan Counties.

Monsoon moisture has moderated wildfire behavior, growth and indices; green up of vegetation is occurring in many areas.

Fire Managers are very pleased with the positive response by the public in adhering to this year's fire restrictions. Human caused fires and wildfire acres burned in this part of the State were fewer than previous years.

The public is reminded that we are still in fire season and vegetation will once again dry out as fall approaches. Please carry a shovel, water, a bucket or a fire extinguisher when recreating outdoors. Campfires and vehicles are two of the prominent causes of preventable fires in our area. Always drown and stir fires to ensure they are dead out before leaving camp and keep vehicles in good working order.

Other areas in the State of Utah are still in fire restrictions for campfires, fireworks and using steel core/jacketed ammunition. Fire Prevention Order UT910-14-001 is permanently in effect for all BLM lands in the State of Utah and prohibits the use/discharge of any kind of fireworks, explosives, incendiary, chemical devices, pyrotechnics and exploding targets. For information on current fire restrictions in the state please visit: www.utahfireinfo.gov.
